

Want to do some *real engineering* again?

Job: Post-Silicon Verification Engineers
Location: Graz Austria
Start Date: Q2 2019

Overview

Panthronics AG an independent IC company with expertise in high performance NFC/RFID hardware and software solutions is anticipating the forthcoming launch of the PTX range of differentiated NFC products. We are currently looking for outstanding people in this domain to strengthen our team in Graz. We now require additional experienced **Post-Silicon Verification Engineers** to provide verification of IC building blocks and complete systems in NFC (ISO 14443-A, B, Felica and ISO 15693).

This is an exciting opportunity to join a first-class team and gain a meaningful equity position within a fast-growing company.

Job Description

- Extending and optimization of existing lab test environment for NFC devices
